

MORE ENCOURAGING NEWS NOW COMES FROM PEKIN

Reports From British Minister and Other Sources Indicate That the Ministers Were Alive Up to a Very Recent Date.

WORD IS ALSO RECEIVED FROM CONGER

Women and Children, Sir Claude States, Writing July 22, Were Safe in the Legation--But the Losses Have Been Heavy.

Tien Tsin, July 31 (Special Cablegram)--Major Waller, commander of the American Marines, received a dispatch from Conger this morning dated July 21, stating that there has been no firing since July 16, by agreement. They have provisions for several weeks and a little ammunition. All are safe and well.

McKinley Called to Washington.

Canton, O. July 31 (Special Cablegram)--The American ambassador to Russia, Tower, arrived this morning and had a long conference with the president on the international complications in China. The president goes to Washington tomorrow, returning Thursday or Friday.

London, July 31, 1:35 a. m.--The admiral has made public the following dispatch from Rear Admiral Bruce at Tien Tsin:
"Following message from Conger:
"British legation, Peking, June 20 to July 16 repeatedly attacked by Chinese troops on all sides. Both rifle and artillery fire. Since July 16 an armistice, but a cordon is strictly drawn on both sides of the position. Chinese barricades close to ours."
"All women and children in the British legation. The casualties to date sixty-two killed, including Captain Spruce. A number of wounded in hospital, including Captain Halliday. Rest of legation all well except David Oliphant and Warren, killed July 21."
British Minister.

Washington, July 31--[Special Telegram]--Admiral Remy cables from Taku, July 28: The Japanese military attaché at Peking in a letter of July 22, reports the legations besieged since June 13 and continually attacked from June 20 to July 17. The attack then ceased, the Chinese soldiers apparently diminishing.

Sixty Europeans were killed. A telegram from the governor of Shantung, addressed to the consular body at Che Foo, says that an imperial edict states that the various ministers, except the German, are well and well supplied with provisions.

Sheng's Vile Threat
Shanghai, July 31--[Special Cablegram]--Sheng, the director of telegraphs, says the report of the massacre in Peking was concocted by the Boxers in the hope of infuriating the powers to some act which would make all Chinese rally to the Boxer banners. Sheng says the amount of the present danger to the ministers depends upon the discretion used by the powers.

Chinese Attack Russians
The Japanese report that ten thousand Chinese attacked four thousand Russians at New Chwang. The Russians succeeded in capturing the fort outside of the town on July 26.

SIR CLAUDE'S MESSAGE PAINFUL

It indicates that fearful losses have occurred among foreigners.
Washington, July 31--Sir Claude MacDonald's dispatch from the British legation in Peking has produced a great and painful sensation in Washington. The secretary was horrified by the tidings, and lamented that Sir Claude had not included in his too brief message some word concerning Minister Conger and the American contingent.

Sir Claude's dispatch convinced Washington that behind the walls of Peking is concealed a tragedy which will stagger humanity when the full truth becomes known. It is to prevent that truth coming out that Chinese diplomacy and Chinese trickery are now exerting all their skill and devilry.

China Wants a Pledge.
Prince Tuan and his advisors, it is said in official circles here, know that when the truth does come out the world will be so angered that nothing can stop a mighty rush of the armies of Christendom upon the imperial city. The dynasty will fall. The streets of Peking will run with blood. Probably the empire will be dismembered.

Knowing this, the Peking junta is raising heaven and earth to secure from the powers a pledge that there shall be no

more advance upon Peking. It wants to secure that pledge before the truth becomes known, for afterward it will be too late.

Conger Believed to be Safe.

Although Sir Claude MacDonald does not mention the condition of any other legation nor any of the ministers by name, it is believed here that Mr. Conger and all the envoys survived at the date of the British minister's dispatch. It is further believed that "all women and children in the British legation" means the women and children of all the legations.

This corroborates Mr. Conger's dispatch of the 18th inst., and leads the state department officials to the conclusion that perhaps Mr. Conger's dispatch was both authentic and of the approximate date ascribed to it.

Most of Them Have Perished.

Sir Claude's message indicates that a large part of the British legation guards have been killed. His figures, sixty-two killed, doubtless refer to the British legation alone. As the British compound was one of the best protected in the city and occupied an exceptional defensive situation, the fate of the guards and attaches in the other legations may easily be imagined. Probably the most of them have perished.

Only Time Can Tell

It is gravely feared here that most of the legations are isolated from their neighbors. It is feared that Sir Claude MacDonald in the British compound does not know what has been going on in other legation inclosures. The same thing is probably true of the German and Japanese legations. How many living men are left to tell the tale in the legation structures which have been subjected to the heaviest fire, and which have been wholly or in part destroyed, only time can tell.

Confirmed the Worst Fears

The British minister's statement that the legation was attacked from June 20 to July 16 by the Chinese troops has confirmed the worst fears of the officials here. There can no longer be any doubt, they say, of the guiltiness of the Peking government.

There is great anxiety as to what course Great Britain and the other powers will pursue as to a formal declaration of war, now that this proof of the worst phases of the situation has come to hand over the signature of the British minister.

Gen. Chaffee Gets Impatient.

Washington, July 31--[Special Telegram]--General Chaffee cables the war department from Che Foo that the facilities for discharging troops from ships are inadequate and slow: "The Indians will finish discharging today and proceed to Nagasaki. It will take two days to unload the horses of Reilly's battery. The Grant has discharged her cargo."

It is reported at Taku Bay that it is the intention to make a forward movement tomorrow towards Peking. Details are not known here. As soon as possible I will get definite information regarding the conditions and purposes at Tien Tsin and cable my news."

Uneasiness at Canton.

RATE OF ONE FARE FOR ROUND TRIP

MEANS BIG REPUBLICAN STATE CONVENTION AUG. 8.

Exhibits a Feature of the Anti-Pass Law--Louis G. Bohmrich Likely to Be Democratic Nominee for Governor--Ex-Governor Peck is in No Hurry to Name the Chairman.

Milwaukee, July 30--A rate of one fare for the round trip has been granted by the Western Passenger association for delegates to the state republican convention Aug. 8, Secretary Gardner Stickney having received word to that effect yesterday. The tickets will be good Aug. 7 to Aug. 10 and the rate will apply to patrons from all points in the state.

It is rather an interesting fact that the anti-pass law prevents the road from granting rates on the certificate plan to convention delegates as the law reads that no privilege withheld from any persons can be accepted by those in official positions. To comply with the law the rate must be made general to all desiring to come to Milwaukee, whether delegates to the convention or not.

Planning the Details.

Sergeant at Arms Harry S. Fuller is hard at work completing arrangements for the state convention. He is planning to decorate the exposition in an exceedingly attractive manner, though not expensively. Col. Fuller's headquarters in room 25 Hotel Pfister will be opened Monday morning for the distribution of convention badges and similar matters. The badges, by the way, for delegates, press and officials have been selected and are especially pretty.

Gilbert Vandercook is among those who are talked of for secretary of the republican state central committee to succeed Gardner P. Stickney.

Looks Like Bohmrich

It is said that in Judge Louis Marchetti, Neil Brown, lawyer, and D. L. Plumer, banker and lumberman, Vau-sau has three men who are available for the democratic nomination for governor. In Milwaukee the opinion is gaining strength that Louis G. Bohmrich is to be the nominee of the convention for governor. Mr. Bohmrich is said to be quite confident himself that things are coming his way with great rapidity. He is a lawyer who is in business in Milwaukee, but who resides in Kenosha.

Peck is in No Hurry

Chairman Peck when asked about particulars concerning the forthcoming state democratic convention, said:

"You might say to those who think I am not on to my job that I will not name a chairman for our state convention until about a week before the convention, which meets on August 22. I have a half dozen men in mind now, any one of whom would be a good chairman, but I prefer to wait before making any one of them might become a candidate for a state office between now and the convention and he might be the one I had selected for chairman."

Mr. Peck will call a meeting of the democratic state central committee to be held on August 21, just before the state convention. The meeting will be held in the Plankinton house.

ENGLAND MOURNS DUKE OF COBURG

His Body Will Be Brought to England--Burial Will Probably Be at Windsor.

London, July 31--[Special Cablegram]--The news of the death of the Duke of Coburg was communicated to the Queen and Prince of Wales last night. The court was put in mourning forthwith; the bells of the royal chapel tolled and official announcement issued throughout the kingdom. The Duke's body will be brought to England and lie in state. The young duke of Albany succeeds to the title. Coburg will probably be buried at Windsor.

POWERS DENIES HE HAD A HAND IN IT

Georgetown, Ky., July 31--[Special Telegram]--George Weaver, who testified that he saw Goebel shot, and who was a hundred miles from Frankfort that day, will be arrested for perjury.

Powers continued this morning his description of his actions on the day of the tragedy. He said that while on the way to Louisville that morning he heard of the tragedy and to John L. Powers, Wharton Golden, Walter Day he said it was a shame and an outrage; and that it had ruined the chances for a contest. When the others had talked of violence he always opposed it.

Smart Parasol Handles.

Very beautiful are the new parasol handles from Paris. The wood is in pastel tints and the handles are decorated in cut steel. Sometimes the handle is covered with black velvet, upon which the ornamentation in cut steel appears in effective contrast. Another fashionable parasol handle is a ball entirely studded with rhinestones.

ROOSEVELT WILL INVADE THE WEST

FOR A VIGOROUS CAMPAIGN IN THE ENEMY'S COUNTRY.

Will Begin the Work in September--No Speeches in August--This is Decided Upon at a Conference with Chairman Hanna--Jones Confers with Croker and Hill.

New York, July 31--Governor Roosevelt, republican candidate for vice president, will invade "the enemy's country," geographically different but politically the same as that which Mr. Bryan assailed in 1896. He came up from Oyster Bay to consult Chairman Hanna, and the conference ended in the governor's favor. Mr. Hanna assented to the proposition advanced by the governor that no speech making be indulged in during the month of August, but that the governor should strike for "the enemy's country" early in September.

The Enemy's Country.

By the term "enemy's country" and the governor, himself employed it during his conversation with Mr. Hanna--is meant Nebraska, Kansas, Colorado, Montana, Idaho, Wyoming, Arkansas, Indiana, Illinois, Ohio, Kentucky and Missouri. The governor signified his willingness to make a speech in each of these states, paying particular attention to Mr. Bryan's own state.

Senator Platt had a full hour's talk with Senator Hanna. When Senator Platt left he said: "We are now going to elect the ticket. Senator Hanna and I have fixed it all up. It is not true that I am going to retire from politics. The newspapers have been retiring me for twenty-five years, but I am still on deck and expect to be for the next few years."

Jones Confers With Croker

Senator James K. Jones of Arkansas, chairman of the Democratic national committee, returned to New York this morning from Elberon, where he conferred with ex-Senator Murphy and Richard Croker.

When asked if he reconciled Murphy and Croker with ex-Senator Hill, Senator Jones' reply was rather evasive. "I came to New York to consult the democratic leaders of the state," he replied, "and not in the role of a harmonizer."

"Did the leaders give you much encouragement regarding New York State?"

"Both Mr. Hill and Mr. Croker told me they thought New York could be carried for Bryan."

RAID ON CHICAGO BUCKET SHOPS

Chicago, July 31--[Special Telegram]--On the eve of the change by the Board of Trade in its system of sending out quotations the police today took a hand against the "bucket shops" raiding all such places down town. About a score of the biggest were closed. The patrol wagons were kept busy carrying the prisoners to the station. There was a wild scramble among the patrons. About three hundred prisoners were taken, too many for one station and they remained outside till the bondsmen came. The establishing of a new telegraph company by the Board awaits the action of the courts, a temporary injunction suit is now pending.

JENKINS WILL BE NOMINATED AGAIN

Chippewa Falls, Wis., July 31--A telegram just received from Ellsworth advises Congressman Jenkins that he has a solid delegation from Pierce county. This settles all doubts if any existed as to his nomination at Menomonie, Aug. 15. As the matter now stands the friends of Mr. Jenkins here anticipate his nomination by acclamation.

Baraboo, Wis., July 31--Never in the history of Sauk county has there been such a scramble for office and such interest taken in politics as this year on the republican side. There are from three to half a dozen candidates for every county office. The delegates have all been chosen and the convention is to be held Aug. 2.

TWO ARE KILLED AND THREE HURT

Explosion of a Boiler on a Tug Near Baltimore Causes Death and Damage

Baltimore, Ohio, July 31--[Special Telegram]--The boiler on the tug Templar exploded at Canton Hollow last night, blowing the boat to splinters and killing Jeremiah Moore, mate; and Charles Wood, and injuring three others.

PLOT TO ASSASSINATE FOUR CROWNED HEADS

Far-Reaching and Diabolical Anarchist Scheme to Dispose of the Crowned Monarchs of Europe Is Unearthed.

AN ATTEMPT TO KILL SHAH OF PERSIA

The Murder of King Humbert Brings to Light Mafia Plans--Martial Law Prevails in Italy--Killing Planned in America.

Brindisi, Italy, July 31--[Special Cablegram]--King Emanuel the third arrived here on his royal yacht this morning and heard for the first time of the assassination of his father. He was overcome with emotion. The new king sent a message of sympathy to his mother and accompanied by his wife started immediately for Rome.

Paris, July 31--Advises to the French police show the assassination of King Humbert of Italy was part of a regularly organized plot to kill the four great crowned heads of Europe--the Czar of Russia, Emperor William of Germany, King Humbert, of Italy and the Prince of Wales.

These are the big targets aimed at by the anarchists, but lesser victims are to be accepted whenever the opportunity offers.

Attempt to Kill Shah of Persia.

An attempt to assassinate the Shah of Persia was made during his visit to the exposition yesterday. A Persian with drawn dagger got close to the Shah. The police started to capture him but the man fled down the Avenue Exposition pursued by the crowd. He was subsequently arrested.

The police endeavor to make light of the incident and to accept the man's story that he was only trying to see the Shah. This explanation is given however in order to keep the public calm.

Increase Guards for President Loubet.

It is essential for the police to take this precaution for the anarchists have made every effort to blow up the exposition and the police surveillance of President Loubet has been doubled.

Prince of Naples Missing.

London, July 31--A dispatch to the Times this morning from Athens says: "Yesterday the Prince of Naples who is touring the Levant in his private yacht, arrived at Piraeus and paid a brief visit to Athens. He left the same afternoon for an unknown destination. Every attempt is being made to communicate with him but all efforts of the government and the Italian legation are so far unsuccessful."

Martial Law in Italy.

Rome, July 31--Arrangements have been completed to place the whole country under martial law if the revolutionary elements attempt to assert themselves.

It is universally felt that the crisis is the gravest that ever confronted the monarchy.

The Prince of Naples is believed by many to be neither physically nor mentally capable of coping with such an emergency.

The Vatican authorities have indicated to the government that it will use all its influence to protect the established order of things.

Assassination Planned in America.

Patterson, N. J., July 31--The assassination of King Humbert of Italy, was planned in this city or New York, and Angelo Bressi, the murderer, was selected by lot to carry the plan of the anarchists into execution.

Bressi was a silk weaver, employed in the mills of Hamil & Booth, and lived at the Hotel Bartholdi, 325 Straight street. He was generally regarded as a quiet and inoffensive man, but now that he has stricken down one of the kings of the old world, his acquaintances are telling of his nightly associations with the vengeance-seeking band of Italian anarchist exiles.

As soon as the news of the assassination was received in America, the authorities became convinced that the plot was laid in Patterson or that the murderer came from there. They were working on this assumption when they learned from Italy that Bressi had admitted that he came from this town.

Late last night his wife was found and she is now in the hands of the police. Bressi left America for Europe on

May 7, and three weeks later, according to the records of the Italian police, arrived in Milan.

The Death Humbert Expected

New York, July 31--That in a kingdom where, according to government statistics, nearly 5,000 homicides took place in the year 1899--that is to say where one Italian killed another Italian every two hours throughout the entire twelve months--the sovereign should be laid low by the hand of the assassin need excite no surprise. It is the death that Humbert had all along expected, to which he had been repeatedly exposed, and for which he in all probability, would have expressed his preference had he been permitted to make his choice.

BOY'S HEAD CUT IN TRIANGULAR GASH

TWO BOYS ENGAGED IN PLAY HAVE ACCIDENT.

While Driving Stakes and Digging Holes to Put Up a Tree, Master Ellis Echlin Accidentally Whacks Master Robert Smith with a Hatchet.

Robert Smith, the six year old son of Mrs. J. L. Smith, the proprietor of the Highland house met with a serious mishap this morning. While at play with some small boys at the home of Mrs. F. B. Echlin in the third ward. The boys had erected a tent in the yard near the house and the Smith boy and Mr. Echlin's son, Ellis, were busily engaged in driving stakes and clogging holes in the ground, each armed with a hatchet.

They were close together both at work pounding and digging with the sharp instruments, when in some way a hatchet in the hands of the Echlin boy landed on the head of the Smith boy, cutting a triangular gash in the crown about four inches long, raising the scalp but not penetrating the skull. The injured boy was immediately taken into Mr. Echlin's house and Dr. Hedges summoned. The doctor found the boy was not as seriously injured as first supposed and had him taken to the home of his parents at the Highland house, where the cut was dressed; a number of stitches being necessary to close the cut.

It was a narrow escape for the child and he will have a sore head for some time.

STENCH ARISING IS SOMETHING AWFUL

NORTHWESTERN STOCK YARD NUISANCE BEFORE COUNCIL

City Will Commence Action Against the Railroad Company Unless the Yards Are Cleaned Up—City Fathers Consider Various Matters of Importance at a Meeting Last Night

The residents of Center avenue will be relieved of the Chicago & Northwestern stock yards nuisance at once if the city will commence action to have them removed from their present location.

Alderman MacLean made a speech to the council last evening setting forth the condition of the yards and also made a motion that the city attorney be instructed to notify the Northwestern railroad that unless the nuisance was at once abated that the city would commence action. The stench arising from the stock yards is something awful and could be remedied by the railroad company keeping the yard cleaned. Alderman MacLean said he had been fighting to keep the stock yards in order for the past seventeen years. So far he had received nothing from the road but promises and it had now reached a point where the yards must be kept clean or the residents of that neighborhood would have to move. The chief of police was instructed to interview Assistant Superintendent O'Brien in regard to the blocking of North street.

The claims for damages filed by Anna E. Davy and Ferdinand Schwanke for injuries received on defective sidewalks, was referred to the Judiciary committee, who asked for more time, which was granted.

Permission was granted to W. B. Harvey to use a portion of North Main street, and John Peters a portion of Academy street for storing material used in the construction of buildings at those points.

Ald. Rice introduced a resolution providing that all crushed stone used on any street in the city shall be paid for out of the fund for the ward in which said stone is used, at the cost per cubic yard delivered at the quarry and that a statement showing the number of cubic yards used in each ward be filed in the office of the city clerk every other week. Nothing contained in the resolution shall be understood to include crushed stone furnished to a contractor for the improvement of any street at the expense of the property benefitted. Adopted.

The street commissioner's report on new sidewalks built by him was received and the cost of building the same ordered charged to the property on the next pay roll.

HON. OGDEN H. FETHERS.

Vice President of the American Commission to the World's Industrial Exposition at Paris.

Hon. Ogden H. Fethers, vice president of the United States Commission to the Paris Exposition, returned home Saturday night from an extended trip in Europe. During his trip Mr. Fethers visited most of the principal cities on the continent and had a most enjoyable time. He is the picture of health, and is feeling better than he has in years.

Mrs. Fethers did not return to Janesville with Mr. Fethers, and is paying her mother a visit in northern New York, where she will remain until the 25th of August. When Mrs. Fethers left home she was quite weak, having just recovered from a long sickness; and the sea voyages and change of climate was extremely beneficial to her, and she is at present in the best of health.

Honor Was Unsought

At a session of the commission in Paris Mr. Fethers was elected to the office of vice president, the honor being entirely unsought on Mr. Fethers' part. Considering the many men of national prominence on the commission, the honor is one that Mr. Fethers, Janesville and the state of Wisconsin can well feel proud of. No better selection could have been made, and no man is better fitted to hold such a position than Mr. Fethers.

Many things derogatory have been said of the Commissioner General Ferd W. Peck of Chicago. In Mr. Fethers' opinion no man could have been better fitted to the position than Mr. Peck. The condition in which he found things when he arrived in Paris and the ultimate success of the United States exhibit will go to show that Mr. Peck was the man of the hour and the United States exhibit under his direction is now competing and winning prizes from the first nations of Europe and all parts of the globe. When taken into consideration that the 6,500 exhibits of the United States against 30,000 of France are winning a large number of prizes.

Stopping Place For All

The United States Pavilion, while not as large and as showy or as handsomely decorated as some of the other nations,

present a stopping place for all weary citizens of this country. The building was started with all the latest papers, magazines and periodicals of the time and numerous easy chairs, divans and other comforts went to make it the most sought of the pavilions for the tired and hungry.

In contrast to the pavilions of other countries nothing in the United States pavilion is offered for sale, in all others the handsome paintings and ornaments had a price and an attendant always on hand to dispose of them, giving the visitor the idea of a large store run by private parties rather than an institution run by a great country for the benefit of its inhabitants.

Mr. Fethers says that for a month after the opening of the fair, it was worth a man's life to walk around and look at the exhibits, the work on the buildings still being carried on. After June 10 the fair was a success but up to that time it was still unfinished and very few people attended.

Considerable of a Drawback

On account of not being able to get a sufficient amount of land in one plot to build the exposition buildings the fair was strung out over a long distance, while the buildings covered a much larger area than the world's fair at Chicago, it did not have the compactness and the pleasant features of the world's fair. In order to visit all the buildings it was necessary to travel long distances which was considerable of a drawback.

The United States commissioners were in high favor among the people and officials of the French capital and no great gathering was considered complete without several of the members and no entertainments were more popular than those given by the commissioners.

Although Mr. Fethers is glad to be at home once more with his friends, he does not think he could have gone anywhere where he would have been better received and entertained than he was in Paris.

Entrance to the store was secured through a rear door, the bolt in the lock having been broken with a chisel. The thieves improvised a dark lantern by emptying the soap from a box and setting a lamp therein. Mr. Brinkman's watch, which was left in the store was not taken, neither was a solid gold badge, won by Mr. Brinkman in a bowling tournament, disturbed.

Mr. Brinkman discovered the robbery when he went to the store Sunday morning and telephone messages were at once sent to Chief of Police Hogan at Janesville and Marshal Appleby at Beloit notifying them of the affair. There is no tangible clue, however, and it is doubtful if the thieves will be apprehended and brought to justice.

The "Northwestern House" is being much improved in outward appearance by the application of a fresh coat of paint. Landlord Bartels is making a number of improvements, of which this is the latest.

Regular M. W. A. meeting next Saturday evening at which picnic plans will be discussed.

"Afton Mills" is the legend on a sign board which has been placed high up on the north end of the mill here, while another modest board a little below this one bears the name of the new proprietor, J. A. Hoskins.

The many friends of Superintendent and Mrs. David Throne here at their old home will be interested to know of the arrival of a son at their Beloit home last Friday.

Mrs. W. G. Waite and son of Harvard, Ill., are visiting relatives here, accompanying Miss Lois A. Waite on her return home last Monday from a week's sojourn at Harvard.

A surprise was perpetrated on Miss Jessie McCrea by a score of friends last Saturday evening and a pleasant time experienced by those present.

Mrs. J. B. Humphrey and daughters May and Ruth left for Delavan Lake last Monday morning and will try the pleasures of tent life there for a couple of weeks. They will be joined by Shopiere friends and anticipate an enjoyable outing.

American Cheese Factories.

There are about 4,900 cheese factories in the United States, in addition to several hundred creameries making cheese in small quantities. The total output of cheese last year was 265,000,000 pounds. Of this amount about 76,000,000 pounds were produced in New York state.

Biggest Deal in Corks.

It is announced that a brewing association has purchased about 480,000 pounds of corks, or about 100,000,000 corks. This is said to be the biggest deal in corks ever made. These 100,000,000 corks in bulk would support 10,000 men on top of water if put into life preservers.

Two Suffocated by Gas.

Peoria, Ill., July 31.—The American Glucose Sugar Refining company resumed operations, and the morning was marked by two fatalities. Ernest Scheidde and J. G. Christ, two old employees of the company, were overcome by sulphuric acid gas. Scheidde was inside an empty grain tank scrubbing it out, and when the gas began to affect him he started to climb out. He reached the top of the ladder, only to fall back to his death. Christ went down to rescue him and lost his life also. Two other employees also were affected by the fumes, but were brought out all right. Both of the dead men leave families.

The Nine Nelsons

There are times when one's power of description fails. There are occasions when mere words seem weak and puny in comparison with the subject about which they are engaged.

Who is the man with a command of eloquence equal to the task of doing justice to the unapproachable, the matchless, the all surpassing Nelson family.

Their work is indescribable. To convey to the laymen even a tithe of its manifold points of superiority and excellence. They are the acrobats of the age, descended from acrobats through generations of ancestors, who were each in turn kings and queens in their day. They have by process of evolution and heredity attained a physique which is acrobatic in every pore, and renders it possible for them to perform with ease feats that other artists can only contemplate—dream of—but never hope to attain.

The Nelsons are under contract to The Great Wallace Shows and appear only with this mammoth organization. The salary paid them is stupendous—almost past belief. They receive \$2,250 for every week of service. This is due to the fact that Mr. Wallace wished to control them exclusively. The Wallace Shows exhibit at Janesville on Friday, Aug. 3rd.

Big as the immense tents are, their tremendous capacity will be tested to their utmost limits.

Dr. Herman Dyer Dead.

New York, July 31.—Rev. Dr. Herman Dyer, a widely known clergyman and teacher, and for many years secretary of the Evangelical Knowledge society of the Protestant Episcopal church, is dead at his home in this city, aged 90 years.

Like a flash of lightning, sudden and startling, disease strikes down many a man. Yet there have been warnings upon warnings, unheeded. Food has lain like a heavy weight in the stomach after eating. There have been belchings, bitter risings in the mouth, nervousness, sleeplessness and growing irritability. Instead of listening to these warnings, recourse has been had to some of the nerve numbing palliatives that cover but never cure disease. Many serious diseases begin in a diseased condition of the stomach and organs of digestion and nutrition. For such diseases there is one medicine which rarely fails to effect a complete cure. Dr. Pierce's Golden Medical Discovery cures ninety-eight per cent. of all who give it a fair and faithful trial. It is a temperance medicine and contains no alcohol.

"I was afflicted with what the doctors called nervous indigestion," writes Mr. Thos. G. Lever, of Lever, Richmond Co., S. C. "I took medicine from my family physician to no avail. In looking over one of Dr. Pierce's Memorandum Books, I found my case described exactly. I wrote to you and made a statement. You sent me a descriptive list of questions, also some hygienic rules. I carried those out as best I could, but thought myself incurable as I suffered so much with pain under my ribs and an empty feeling in my stomach. At night would have cold or hot feet and hands, alternately. I was getting nervous and suffered a great deal mentally, thinking that death would soon claim me. Always expected something unusual to take place; was irritable and impatient, and greatly reduced in flesh. I could scarcely eat anything that would not produce a bad feeling in my stomach. After some hesitation, owing to my prejudices against patent medicines, I decided to try a few bottles of Dr. Pierce's Golden Medical Discovery and 'Pelllets.' After taking several bottles of each, found I was improving. I continued for six months or more, off and on until I was cured."

Dr. Pierce's Pleasant Pellets are a positive cure for constipation.

DIRT CLEARANCE.

It is a good plan for every bather to know something of the soap he uses. There is a well-founded objection to using a floor-cleaning soap upon the human body. Ivory Soap is the bather's soap. It costs more than common soaps, but the difference is in the ingredients and making. Why not treat yourself with a little respect. Is not the human skin with its marvellous delicacy entitled to pure soap? Ivory Soap—it floats.

MR. WHEELER'S RETIREMENT.

By the retirement of Hon. Wm. G. Wheeler, the people of Wisconsin lose the services of one of their ablest representatives. Mr. Wheeler was one of the leaders of the legislature, and no member occupied a more enviable position. In the chairmanship of the judiciary committee he held what is credited to be the most important assignment in the assembly, and at one time there was a formidable movement looking to his selection as speaker. Mr. Wheeler modestly refused to advance this movement, in any way, however.

Another handsome compliment was paid him when he was selected, four years ago, to make the speech placing Hon. John C. Spooner in nomination for the United States senate. Two years ago he was one of Mr. Quarles' foremost supporters, and wielded much influence in that protracted fight.

Mr. Wheeler's legislative record is excellent, and his name will live. Fearless, conscientious, and energetic, he refused to sanction anything that he considered unjust, and his voice was raised, and his strength thrown into the fight regardless of circumstances or conditions, whenever he considered that the rights of the people were in danger. And when Mr. Wheeler spoke, the legislature listened. His knowledge of the law and the constitution as well as his business sense and excellent judgment were recognized by all his fellow members, and his influence was correspondingly great.

The announcement of his retirement will be received with regret, not only in this district, but throughout the state. The people of the district would have felt honored to tender him a unanimous renomination, and it is said that there was scarcely a doubt but what he would have been further honored with the speakership. Regrettably, as it will naturally be, however, his wishes must be respected. He has served faithfully and well, and retires with the well wishes of all who admire an honest, fearless, able and manly man.

SOME CONTRASTS.

Janesville is showing some striking contrasts these days. For instance, contrast the splendid fire department with the puny and unsatisfactory police department. Then again, compare a \$13,000 street lighting expenditure with a reduction of \$1,000 in the school fund. These are but two samples, and many others might be enumerated. Janesville cannot afford to thus discriminate. If the Bower City is to grow, it must have "all modern improvements." Both foolish extravagance and unwise economy should be avoided. The council is on record in favor of a liberal policy, and it cannot abandon that position without admitting that it was in error in establishing it.

The United States Commissioners to the Paris Exposition certainly paid Ogden H. Fethers, and the Badger state as well, a handsome compliment when they elected Mr. Fethers vice president of the commission. The board was composed of nineteen members, Mr. Fethers being the Wisconsin representative.

Hearst's Chicago American prints a picture of Bryan inspecting the oat crop on his farm. The American should be more careful. The man who owns a farm, but doesn't live on it, is generally held, by the Bryanites, to be a plutocrat.

Mr. LaFollette's caucus law ideas meet with ready favor. A primary election system would necessarily be cumbersome, but the results would be satisfactory.

The Wisconsin German Press Association refused to pass "anti-imperialism" resolutions. Dave Rose must have lost the German vote through a hole in his pocket.

The county convention to nominate the republican candidates for county offices will be held at the circuit court room tomorrow afternoon at 2 o'clock.

Buffalo Bill's rough riders got a taste of the real thing the other day, when a way freight tried to ride over the show train.

King Humbert paid the penalty of greatness. "Uneasy lies the head that wears the crown"—and then comes death.

American soldiers in the Philippines think Aguinaldo is dead, but the chances are that he is only sleeping.

The news from China grows blacker every day.

WILL ADVANCE ON PEKIN.

American and British Forces to Move at Once.

Continued From page 1.

tinues and the uneasiness of the foreigners increases. Takhsu, the acting viceroy at Canton has ordered forty Chinese pirates recently captured to be put to death.

READY TO ADVANCE ON PEKIN

American and British Forces Will Leave Tien Tsin at Once.

Tien-Tsin, July 31.—The British and American forces are getting ready to advance within forty-eight hours. A great battle is expected.

Li Hung Chang remains at Shanghai. He says that the great heat prevents him continuing the journey to Peking. It is reported at Shanghai that the powers have again proposed, through Earl Li, the peaceful surrender of the Woo-Sing forts and Kiangnan arsenal, but that the Chinese regard the proposal as a breach of the existing agreement.

Holding Out July 24.

Brussels, July 31.—Chinese sources say that the Europeans at Peking were holding out July 24 in the Catholic cathedral.

Still Holding Out.

Tientsin, July 22 (via Shanghai, July 31).—The latest advices from Peking, under date of July 15, say that the legations are holding out. The Chinese attacked the legations on the night of July 10, but were led into a trap by the Americans and British and 1,000 of them were killed. Afterward they continued bombarding the legations more freely.

Gen. Chaffee at Taku.

Washington, D. C., July 31.—The war department has received the following cablegram from Maj.-Gen. Chaffee: "Chefoo, July 29.—Adjutant-General, Washington: Left Nagasaki daybreak on July 26; arrived Taku at 10 o'clock of July 28. CHAFFEE, "Major-General."

Monte Carlo.

Monte Carlo, the most regal and best-known gambling salon in Europe, is frequented by millionaires and princes who delight in games of chance. The Casino occupies the highest point of this rugged bit of land. Two years ago, when the company controlling the gaming tables renewed its fifty years' lease, the agreement was that at the end of 1899, \$2,000,000 should be paid to the prince, and \$3,000,000 in 1913. Further, he is to be paid between 1900 and 1913, \$350,000; between 1917 and 1937, \$480,000, and between 1937 and 1947, \$600,000 each year. The company pays all the expenses of the principality, as it can well afford to do. Last year a clear profit of \$5,200,000 was declared.

Lord Morris Was Candid.

Lord Morris, who has just retired from the Lords of appeal court, was nothing if not candid. Once when some affair affecting the American church came on, the Irish Lord of appeal, looking around on his colleagues, English and Scottish, said: "One of us is a Jew; another is a Presbyterian; and I, as a Roman Catholic, yield to none of your lordships in ignorance of the matter in hand."

WAR FEVER HAS STRUCK JANESVILLE

SIX MEN FROM COMPANY I JOIN
THE REGULAR ARMY.

The New Soldiers Were Sent to Columbus, Ohio, and Expect to Start for China About September 1.—Full Company Will Go to Camp Douglas Saturday.

When Captain Achterberg starts for Camp Douglas with Co. I, W. N. G., on Saturday next for the annual encampment, six familiar faces will be missed from the ranks. During the last ten days six members of Company I have joined the United States regulars for service in China.

The war fever struck Janesville and the young men, anxious to avenge the wrongs of their countrymen, immediately left for Rockford, Ill., where a recruiting station has been opened, and enlisted. They were at once transferred to the United States barracks at Columbus, Ohio, and expect to start for China about September first.

Those from Company I that enlisted are:

CORPORAL CHAS. F. CANIFF.
CORPORAL WILLIAM HAGER.
JACK HANS.
RICHARD LINDERMAN.
FRANK PUTMAN.
WM. B. PARKER.

The career of these young men will be watched with anxious eyes by the people of Janesville when once they are in China fighting for their countrymen. Although he has lost these six men, Captain Achterberg expects to take a full company of sixty-five men and officers to camp with him.

BRIDE AND GROOM. WERE BOTH BLIND

INTERESTING WEDDING HELD
AT FORT ATKINSON.

The Groom Was John J. Cummings of Janesville, Who is a Carpet Weaver by Trade and Well Known.—The Bride Was Carrie M. Anderson, Also Known Here.

After a courtship extending over 20 years, during the last 12 of which they had exchanged letters regularly, three times a week, Carrie M. Anderson of Fort Atkinson and John J. Cummings of this city have been married, but without ever having seen each other—for both are blind.

The groom is the son of Mr. and Mrs. John Cummings of 173 Washington street. He was born in McHenry county, Illinois, on a farm owned by his father, February 6, 1849, making him 51 years old last February. He has resided in this city for the last 33 years, his parents moving here from Jacksonville, Ill., about that time.

Mr. Cummings has not always been blind he having lost his eyesight when a small boy through an accident. After losing his sight he was sent to the Jacksonville University for the "Blind" and spent four years in that institution getting an education. After coming to this city he spent four years at the Wisconsin School for the Blind, where he received a fine musical education and also learned the trade of hand loom carpet weaving which occupation he followed many years.

About the time of his graduation from the Wisconsin School he secured a position as musical instructor at the Musical Conservatory at Ripon, Wis. Shortly after this his hearing became affected and he soon became totally deaf and on this account had to give up accepting the place offered him at Ripon. He then settled down at his father's home in this city and conducted a carpet weaving business at which he was an expert.

The only way that a conversation can be carried on with Mr. Cummings is by means of a glove having pads on it resting on each of the joints of the hand and fingers, each of which represents a letter of the alphabet. By pressure on the projections of the glove he is able to spell out the different words.

In many respects Mr. Cummings is a remarkable man. During his lifetime he has accumulated a library of some two thousand volumes and can repeat about seven thousand lines of poetry from both the ancient and modern poets. He is a man of happy disposition, always pleasant and never complaining of his afflictions.

The bride, Carrie M. Anderson, is a resident of Fort Atkinson and is about forty eight years of age. She was educated at the Wisconsin School for the Blind in this city during Mr. Little's term as superintendent. She is a fine musician and has a beautiful voice, and since leaving the institution has earned enough money from concerts and entertainments in which she has taken part to buy three houses in Fort Atkinson, where she resides.

The acquaintance which has ripened into matrimony was formed while the bride and groom were pupils at the School for the Blind, and since that time it has been the aim of both parties to keep them in comfort the balance of their lives.

Mr. and Mrs. Cummings will reside in Fort Atkinson in the future. Neither of the pair ever had their pictures taken although frequently solicited to do so by relatives and friends. They have a superstition that it would bring them bad luck.

HON. WM. G. WHEELER NOT A CANDIDATE

WILL NOT RETURN TO THE ASSEMBLY.

Business Reasons Lead Him to Decline Generous Offer of Support, Although There Was an Excellent Prospect of His Selection as Speaker—County Convention Tomorrow.

Assemblyman William G. Wheeler will not be a candidate for re-nomination, the announcement to that effect being made by Mr. Wheeler this morning.

As has been universally known, many friends had offered Mr. Wheeler their support, and if he had desired he could have had a unanimous renomination, with an additional excellent prospect of being elected speaker, but business reasons led him to decline the generous support volunteered in all portions of the district.

The county convention to nominate republican candidates for county offices will be held at the circuit court room tomorrow afternoon at 2 o'clock, and the various candidates have been busy today interviewing the delegates.

BOYS MUST TAKE A BIBLE WITH THEM

THE JUNIOR Y. M. C. A. OUTING
AT DELAVAN LAKE.

Camp Will Open Tuesday, August 14, at Noon, and Will Close Friday, August 24.—The Special Instructions and Program Which Have Been Issued by Secretary Kline.

We present to parents and Juniors of the Janesville Y. M. C. A. what will be the Third Annual Outing for our Junior Department. Definite arrangements are being made for ten days of the best vacation for our boys ever given, and it will be a permanent annual outing for the future. We plan for strong, healthful and safe recreation, careful discipline and good fellowship.

Time and Place.

The camp will open Tuesday, August 14 at noon, and will close Friday, August 24. The Chautauqua Assembly grounds at Delavan Lake is the chosen spot for this ideal camp.

Management.

J. C. Kline, general secretary, Arthur Clark, assistant, will have charge of the camp, and will spare no effort to make the outing pleasant and profitable. It is the plan to have such discipline as is best for the welfare and safety of the whole party and enough system for the superintendent to keep watchful care over every member of the camp. Two special rules shall be that no boy shall enter the water for swimming, bathing, boating or fishing, except in the presence of a leader. (Ample opportunity will be given for swimming and boating.)

Recreation.

Base ball, basket ball, running, jumping, rowing, fishing, cross country rambles and bicycle runs will be some of the attractions. A program for two field days will be carried out. The Chicago Juniors will be in camp the same time at Lake Geneva only eight miles away, and a mutual visitation is being planned, and the field day exercises can be held on the Lake Geneva athletic grounds. Every visit to Lake Geneva will include a swim with the Chicago boys. The physical director and general secretaries throughout the west will be at the Y. M. C. A. camp, so that special features of interest to every junior is provided.

Cost.

The expense has been made as low as possible. For those going on wheels, \$5.00 will cover all cost, except baggage, which will be 25 cents extra. For those going on train, the full expense will be \$5.75. Tent room, food, boats and the use of everything pertaining to the camp is included in the above expense. The overland ride on wheels is the ideal way to go.

Information.

Mail will be received daily if directed to Delavan, Wisconsin. Everything taken to camp should bear the name of the owner. Leave good clothes at home.

What to Take.

Two double blankets—you cannot get them too heavy. Bible, two outing shirts, underwear, trousers, coat, overcoat, stockings, one pair of heavy shoes, one pair tennis shoes, soft hat or cap, bathing lights, sweater, towels, pillow case of dark strong material, handkerchiefs, necktie, soap, comb, tooth brush, small mirror, jack knife, fishing tackle, any kind of musical instrument, balls, bats, camera and bicycles.

Grand Offer to Boys.

A year's membership to all privileges of the Junior department of the Y. M. C. A., and this grand outing for ten days, including expenses as herein given, for \$7.75, or, if by train to camp, 75 cents extra.

Respectfully,
J. C. KLINE, General Secretary.

Held a Lawn Social.

A neat sum was realized by the Young Ladies' Sodality of St. Mary's church at a lawn social held at the home of Mr. and Mrs. Con. McDonnell on East Milwaukee street last evening. The lawn was brilliantly lighted with numerous lights and crowded with people. Ice cream and cake were served by the ladies of the society to their many patrons.

On Sunday, August 5 the C. & N. W. R. will run an excursion to Whitefish Bay. Fare \$1.50 round trip.

Opened to a Large House At Myers' Grand Last Night.

Van Dyke and Eaton, old time popular prize favorites, opened what promises to be a most satisfactory week's engagement at the Myers Grand last evening. The company is an especially strong one, consisting of five ladies and six gentlemen. The bill last night was "The Parisian Princess" and with Miss Eaton in the leading role and Miss Birdie Van Dyke as ingenue, H. W. Van Dyke as the comedian, and Charles Sullivan as the hero, it pleased the audience. Miss Van Dyke's illustrated songs were especially praiseworthy and the other specialties were good. There was a crowded house. Tonight the bill will be "Wanted—A Wife," a three act farical comedy. Only 10 cents to all parts of the house. Miss Eaton will introduce her celebrated "Queen of the Night" dance.

Widowhood in China.

It is a common facetious saying in this country that more widows marry than girls. In China, however, it is the rule of good society that widows do not remarry. They are not forbidden to do so, but they are thought more highly of if they don't. In order to encourage them the government, when they have passed the age of 50 and have not remarried, confers on them a tablet containing an eulogy of their virtues.

Gas Engines for Ships.

It is suggested that it will be profitable to try the experiment of using gas engines for driving ships, the gas being generated for the vessel itself. Coal will be roasted in retorts aboard the ship in order to drive off the gas for the engine. The coke thus produced would furnish the fuel needed to roast the coal.

MOTHER MOURNS HER DEAR BOY

ACCIDENTAL DROWNING OF
CHARLES B. ANDERSON.

Went with Some Other Boys to Goose Island for a Swim and Was Sucked Under by the Cruel Current—Honest, Faithful Young Fellow, Loved by Everybody.

The first case of accidental death by drowning in this vicinity in nearly three years occurred last night about six o'clock in the river near Goose Island and directly opposite the Palmer hospital.

Charles B. Anderson, 15 years old, the only son of Mrs. Carrie Anderson, a widow, residing in the Wilcox Flats, East Milwaukee street, was the victim.

The body was recovered about 7:25 o'clock.

Last evening he left the factory of E. M. Marzloff & Co. where he was employed and in company with Frank Nelson, a lad about his own age went up to the island for a swim. After entering the water young Nelson started and swam towards the center up the river when he turned to return to the shore young Anderson was nowhere in sight.

Mrs. Amelia Thorpe who lives on the opposite side of the river from where the two boys entered the water saw them in swimming and presently heard a cry for help and saw young Anderson struggling in the water. She called to Nelson to come to his assistance, but before Nelson could do anything Anderson had had sunk beneath the waters. Nelson immediately dressed and ran to town for assistance.

A large crowd soon collected on the river bank. A number of men in boats and several more in the water searched for the body, which was finally located by Wesley Allen, about seventy five feet from shore and in about ten feet of water, a short distance down the stream from where the young man had left his clothes on the bank.

The remains were brought to the shore, the fire patrol summoned and the body taken to Kimball's undertaking rooms.

I. D. Burdick, the aged grand father of the young man, was on the shore during the search and took charge of the body when recovered, and then came to the city to break the news to his daughter, Mrs. Anderson, who was prostrated by the shock.

Mrs. Anderson is a sister of Will Burdick, formerly of this city, and a well known ball player. Her husband, Lou Anderson, a conductor on the Wisconsin Central railroad, was killed by the cars at Waukesha a year ago last April. Since that time all her hopes have been bound up in her only son, whose loss is one that she can scarcely stand.

The young man, whose life came to such a sudden termination last night, was well known to most of the business men and was what is known as a hustler. He was always employed, when not in school, at some job that would increase his small earnings and help him in attending the public schools. He was a member of the class of 1903, and was esteemed by all.

The grief stricken mother has the sympathy of the entire community in this time of her great loss.

The funeral will be held tomorrow at 1:30 p. m. from the Sunday school room of the Baptist church, the Reverend A. C. Kempton officiating. The remains will be taken to Milton Junction by carriage for interment.

Trinity Church Sunday School Picnic.

The Trinity church Sunday school and parish picnic will be held at Crystal Springs park on Tuesday, July 31. The boat leaves at 10 a. m., 2 p. m., 4 p. m. and 6 p. m. Fare for round trip, children, 5 cents; adults, 15 cents. All members of Sunday school free. Fashioners and friends are cordially invited.

A Toe for a Finger.

A substitute forefinger was shown by a Koenigsberg doctor at a surgical congress in Berlin. He had cut off the patient's second toe and sewed it to the stump of the missing finger. Primary union followed and the new finger could be moved by its owner.

DEFENSE IN GOEBEL CASE.

Caleb Powers Takes the Stand in His Own Behalf.

Georgetown, Ky., July 31.—Former Secretary of State Caleb Powers took the stand in his own behalf in the Goebel conspiracy case, but did not complete his testimony on direct examination.

His defense is an admission that he organized the body of mountaineers who went to Frankfort on several occasions last winter for influence with the state contest board and the legislature, but not to intimidate them.

He entered a denial of the damaging charges made against him by Witnesses Culton, Golden, Noakes and others.

On the stand Monday he denied that Henry Yousey had the keys to his office on the day of the assassination, but said that there were two keys to the office, one of which was in the possession of former Assistant Secretary of State W. J. Davidson and the other in possession of Ben Rowe, Governor Taylor's colored porter.

Powers says neither of these keys was ever in his possession and that he had his own key in his pocket in Louisville the day of the assassination.

THREE THOUSAND HOMELESS.

Twelve Lives Lost in Floods in Chile—Property Destroyed.

New York, July 31.—A dispatch to the Herald from Valparaiso, Chile, says:

"The latest rains inundated the outskirts of Santiago. Twelve persons were drowned and more than 3,000 persons were rendered homeless.

"The cost of repairing railway lines in Chile is estimated at 14,000,000 pesos. There is no railway communication between this city and Santiago. The masonic lodges are collecting money to relieve distressed and suffering persons.

"A note has been addressed to the United States government by Chile in reference to the Pan-American congress, to the effect that Chile will take part provided no disagreeable questions are raised. President Errazuriz, who has been ill, will soon resume his duties."

The sessions will continue for two weeks and a large number of prominent speakers and instructors will take part. Among the number are Rev. R. A. Cleveland, O., July 31.—The university movement has reached this city and leagues for the study of economic questions are to be formed by E. R. Cornell and H. W. Whitworth, who have been sent here by the University association of Chicago. Municipal ownership is to be given prominence here, although trusts, international law, expansion and other matters are to be handled by the leagues.

Joliet Mill Starts Up.

Joliet, Ill., July 31.—Two hundred men resumed work this morning in the merchant mill of the Illinois Steel company. The wage scale has not been signed, but the men go back on certain conditions.

A general suspension of the steel mills in Joliet is not looked for. The blast furnaces may be shut down for repairs, but all other departments are expected to continue steadily at work.

May Be a New Welland Plot.

Buffalo, N. Y., July 31.—Dispatches from Tonawanda say that a wallet was picked up at the central station in that city which had evidently been dropped by a passenger, and which, when examined by the police, disclosed two documents which are considered as proof of a second plot to blow up the Welland canal.

Orcana Pursued by Troops.

London, July 31.—The Colombian consul-general here says that he has received a cablegram announcing that Uribe has been precipitately abandoned by Orcana, who is being pursued by 7,000 troops.

The situation in Panama and on the coast, the cable message says, is satisfactory.

BOMBARDED BY BOWLDERS.

Eyewitness Describes the Eruption of Mount Azuma in Japan.

Seattle, Wash., July 31.—Particulars of the eruption of Mount Azuma in Japan have been received. So far as known 250 persons were killed and many hundreds were injured. An English agent of the Japanese government, who was among the natives in the vicinity of Mount Azuma during the eruption, says:

"Early on the morning of July 17 loud detonations, as if heavy guns were being fired, were heard. They gradually decreased and finally ceased altogether. About 6 o'clock tongues of fire spouted from the crater. We all stampeded toward the valley, not, however, before one of the great bowlders had crashed through the place and killed twenty people. The ashes and small rocks were falling like hail, and it became difficult to breathe. I reached the village of Hiyukulco, after scrambling through the trees for two or three hours. Everything seemed to be drying up from the intense heat. The ashes were hot and covered the ground for half an inch. One family of ten, who were too frightened to do anything but pray, got hemmed in by the lava and were ground and burned in the food. Several of the men and children from the village fell by the roadside, and most of them were burned to death."

ATTACKS THE STATE'S PROOF.

Defense in Jester Case Lays Stress on Court's Instructions.

New London, Mo., Aug. 1.—In the Jester case Attorney Allison, for the defense, emphasized the instructions the judge had given the jurors that the state was undertaking to prove this man was guilty on circumstantial evidence alone, and that they should not find Jester guilty without it was proved to a moral certainty that he had murdered Gilbert Gates; that there was absolutely no other theory from the evidence.

He insisted that the state had not even proved that Gilbert Gates was dead, much less that Alexander Jester had killed him. Witnesses, he said, had testified to impossibilities. They had undertaken to tell where this man and that man was standing twenty-nine years ago, and whether they ate an early or late dinner on that day over a quarter of a century ago. The speaker characterized the methods of the prosecution as bad.

Gentlemen:—I must say in regard to GRAIN-O that there is nothing better or healthier. We have used it for years. My brother was a great coffee drinker. He was taken sick and the doctor said coffee was the cause of it, and told us to use GRAIN-O. We got a package but did not like it at first, but now would not be without it. My brother has been well ever since we started to use it. Yours truly, Lizzie Sochor.
